Ayer's CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well-known public persons:

From a Forwarding Merchant of St. Louis, Feb 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

As a Family Physic.

From Dr. E W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you *what* complaints I have *cured* with your Pills better than to say *all that we ever treat with a purgative medicine*. I place great dependence on that effectual cathartic in my daily contest with disease, and believing, as I do, that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst *headache* anybody can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect, ED. W. PREBLE.
Clerk of Steamer Clarion.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C, 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for *bilious dysentery and diarrhœa*. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.* JOHN G. MEACHAM, M. D

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of *costiveness*. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it, for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the *natural secretion* when wholly or partially suppressed, and also very effectual to *cleanse* the *stomach* and *expel worms*. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Episcopal Church.

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating *neuralgic pains*, which ended in *chronic rheumatism*. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec., 1855.

DR AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass.

THE GRAND PROMOTERS OF HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful as to astonish every one. Its pre-eminence as a remedy for bilious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive, that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation protected, so that both physical and moral energy are increased

Determination of Blood to the Head.

This is generally occasioned by some irregularity of the stomach and bowels, which, if not quickly attended to frequently terminates fatally. The whole physical machinery is thus rendered healthy, regular and vigorous

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthmas has appeared these Pills may be relied on as a certain and never failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

CURES AND COMFORT FOR THE BED-RIDDEN.
—BY—
Holloway's Ointment.

THIS wonderful Ointment acts like magic in relieving curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structure. It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore natural circulation, and expel the disease. For the above complaints Holloway's Ointment and Pills are infallible specifics.

Diphtheria, Bronchitis, Sore Throats, Coughs and Colds.

This class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act opowerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complaint which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked to or in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, these delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from Piles and similar complaints when they might use Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to anyone

Disorders of the Kidneys, Stone and Gravel

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a rough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore Throats,
Bunions	Elephantiasis,	Skin Diseases
Bite of Moschetos	Fistulas,	Scurvy,

EXTRAORDINARY

CURE OF A COUGH.

The following letter has been received from WILLIAM BOARDS, Esq., an extensive agriculturist and land agent, residing at Edmonton, Middlesex:—

"Nightingale Hall, Edmonton.

"Dear Sir,—I have recently suffered much from a most violent cough, proceeding from a tickling in my chest, which no remedy, out of many I resorted to, could allay. My head was constantly aching, and my whole frame entirely shaken. Having seen the good effects of your Balsam of Aniseed in several members of my family, I purchased a small bottle, and, when going to bed at night, took a teaspoonful in two tablespoonfuls of water, just warm. The effect was immediate; it arrested the tickling in my chest, I slept well, and arose perfectly restored in the morning, with the exception of debility, arising from fatigue by incessant coughing for some days previous. My cough entirely left me, and has never returned. Having since heard of a lady in the neighborhood who for a long time had laboured under a most distressing cough, and who had resorted to every remedy within her knowledge, I sent the remainder of the bottle to her; and that long-standing, obstinate, and (as she thought) incurable cough, was perfectly cured. You are at perfect liberty to make what use you may please of this communication, as the contents are strictly true. I shall take every opportunity of recommending your inestimable medicine, feeling as I do fully assured of its efficacy.

"I am, dear Sir, yours very truly,
"WM. BOARDS.

The success of the Spanish rebellion, through which a dynasty was overthrown after a few trifling engagements and a new Government organized upon a Constitutional basis, is an event unprecedented in history. Under the lately dethroned Queen Isabella, religious and political liberty were unknown, and the state of wretchedness and poverty in which the people were steeped was truly appalling. Ministry succeeded ministry during the last few years, each promising an improvement, and each retiring from office with a load of infamy greater than had attached to its predecessors. The people, stirred to action by the example of the famous General Prim, after two abortive attempts have succeeded in throwing off the yoke and in securing for themselves and children the priceless boon of a Constitutional Government. In a short time this regenerated people, out of whose hearts the Spanish Queen fondly imagined she had crushed the last lingering longing for liberty—these emancipated serfs from whose limbs the shackles of tyranny have just been struck—will walk proudly to the polls and declare their preference for a King the foundation of whose throne will be rest deep in the hearts of the people. The spectacle is as grand as it is unprecedented, and must cause the blood of the lovers of Constitutional liberty, even in this Colony, to quicken in their veins at its contemplation. The moral effect of the Spanish rebellion has been felt throughout the continent, and nowhere more strongly than in France, whence ascends the angry mutterings which precede a popular upheaval. The latest telegrams from Paris state that the Government is alarmed, and not without reason, at the state of popular sentiment towards the Emperor. Secret societies, with ramifications in every *commune* in the Empire, whose object is the dethronement of Napoleon, are known to exist, but their members are rarely detected. A demonstration attempted in honor of a victim of the *coup d'etat* was suppressed, and those engaged in it imprisoned or fined as enemies of the public peace. In the Press the power of the Empire—since the failure of the Mexican expedition and the success of Prussia—is openly derided and defied; but when one journal is attached a dozen rise from its ashes to renew the fight in the cause for which it battled. One of the boldest and most satirical writers in the Press of the day—M. Rochefort of *La Lanterne* newspaper—week after week attacked the chastity of the Emperor's mother by asserting that he was 'not his father's son,' by exposing his private vices, by ridiculing his policy, and enumerating his diplomatic failures. When sought by the Government, Rochefort fled to Brussels, there set up his press, and now floods the Empire with his journal, which is smuggled across the frontier. The people are deeply disaffected, and no wonder the Government is alarmed, and resolved to take vigorous steps towards suppressing all demonstrations of a political character. Napoleon, despite his mistakes, is a great and wise Prince. He has raised France from the status of a second-rate European power, into which she was fast falling under the Orleans dynasty, to her present proud position, and has proved a faithful ally of our own mother country. So long as he can with confidence rely upon the fidelity of his soldiers, he has little to fear from a popular *emute*. In Spain the first symptoms of revolt came from the army. In France the popular voice has sounded the first note of discontent, and it is a remarkable and ominous fact that in every uprising of the French people they have early in the struggle secured the fraternization of the army and marched with its eagles to victory. We shall watch with no little interest the progress of events on the continent for the next few months.

The growing prosperity of Canada is illustrated by some returns quoted in one of the papers of the Dominion. In nine years just past the imports had increased upwards of 81 per cent., and the exports 94. The exports of manufactures rose from $26,000 to $989,000, and the population had been enlarged annually by 3½ per cent. A fact which serves to bring out in a still more striking manner the comfortable condition of the people is that, in ten years deposits in banks have increased 350 per cent. Let the reader compare the rate of wages in Canada and the United States, the cost of living, the price of all articles necessary for personal comfort or domestic use, and inquire as to the feeling with which they would be received in the two countries—and they may probably be led to the conclusion that there is very good reason why the Republicans at Chicago should have acknowledged the importance of encouraging "foreign immigration" into the United States.

We hear that a protest will be presented to His Excellency the Governor to-day against the selection of Messrs Helmcken and Drake as members of Council on the ground that aliens and other unqualified persons were allowed to vote. Viewed from a moral aspect, the late selection shocks us; but what remedy is there for the evil? Besides, both sides availed themselves of the illegal votes, and suppose a scrutiny were to take place, would the result be changed? We don't think we would try to drown a duck by pouring water on its back, neither would we waste time, paper and ink in protesting against a decision which, call it what you may, is only a recommendation, after all. The most sensible course is for the people to decline to again go to the polls to "select" their representatives, and pending Confederation, to appeal to the Home Government for a renewal of our constitutional privileges and a restriction of the franchise to properly qualified persons.

MARRIED.

In this City on the 19th inst, by the Rev. Thomas Somerville, of the Church of Scotland, at the residence of Samuel Nesbitt, Esq., James Muirhead to Rebecca, eldest daughter of Thomas Fleming, Esq., Farmer, San Juan Island.

Perrie Creek, Kootenay.

Perrie Creek is situated about twenty-five miles from Wild Horse Creek, west. It is a tributary of the St Mary. From the junction of the St Mary, Kennedy City is six miles. A good wagon road is completed for that distance by a few enterprising miners, Judge O'Rielly assisting by giving $50. This Creek was struck on the 15th of September last. A few days afterwards there were twenty-five hundred miners prospecting and mining to advantage. Kane & Co made $12 to $15 per day; Hoof & Co the same, and several companies only starting made an ounce per day to the hand. As high as 4 ounces to the pan has been obtained, but only in places. The paying mining ground is about six miles in length, as far as proved yet; but a much larger space is anticipated next season, on the opening of the creek. The miners in general seem to be well satisfied that the creek will pay good wages—although no large strikes have as yet been made. Surface diggings are only worked at present; but it is believed the bed-rock will pay next season, as it is too late this fall to prospect on any extensive scale.

A town has been surveyed on Perrie Creek, called Kennedy City, in honor of one of the discoverers. There are several stores and saloons, blacksmith and butcher shops. A trail will be opened from Pea Vine Prairie due north for a distance of fifteen miles, and it is confidently believed there will be at least two thousand men on the various Creeks next summer.

THE CITY POUND.—In the proceedings of the City Council, during the last few months, much has been said about the City Pound and the appointment of a keeper. Many people want to know, not without reason, whether the institution is working? The streets are constantly filled with cows, hogs and geese, which commit serious depredations on the public with perfect impunity. For instance, on Wednesday evening, a cow, on Wharf street, ran off in a most scientific manner with a bag of fine Timothy seed, worth at least $10, and scattered it broadcast as she jogged away. Very naturally, the traders who lost the seed, desire to know in case they cannot find out the owner of the cow, whether the City Fathers are not responsible for the damage sustained? In view of the serious complaints made in this respect, the Pound ought to be completed at once.

THE FRENCH HOSPITAL.—The Committee of the French Benevolent Society wish to state for public information that the rate per day for board and medical treatment at the Hospital maintained under their auspices is $3 to non-members. Members of the Society pay $1 per month, and when sick are entitled to medical attendance, food, etc., without further charge. The benefits of this noble society are not confined to natives of France, but the roll of membership is open to all nationalities. The Association own the building and the ground on which it stands, and have a considerable sum of money out at interest.

NIGHT WATCHMAN.—The nomination of Michael Hart to succeed the late Michael McGee, as Night Watchman of Yates street Ward, has been confirmed by the Stipendiary Magistrate. It will be satisfactory to the citizens generally to know that Mr Hart received the signatures of two-thirds of the residents of the Ward, recommending him to this situation of trust and confidence, and that his character was afterwards thoroughly investigated by the Magistrate before he confirmed the appointment.

FOR CHINA.—The Hudson Bay Co's Wharf was a scene of bustling life and fun yesterday morning. Some seventy Chinamen were going over to Port Townsend in the steamer Emma for the purpose of shipping to China, the flowery home of their childhood. The industry of this class in mining, as in other avocations, is proverbial, and, as far as could be ascertained, it was thought these men were returning with an average, at least, of $2000.

MOST LIKELY.—The power of imitation, especially amongst monkeys, is a well established fact in Natural History. When, therefore, we hear upon good authority, as we have lately, that a remarkably smart female monkey on exhibiton in New York has imitated her sisters in that city by obstinately adopting the 'Grecian Bend,' we are quite prepared to believe the assertion.

A BURIAL PARTY was sent out yesterday to inter a number of dead bodies of Hydah Indians which had been left uninterred near the former encampment of the tribe at Rose Bay, about one-third of a mile west of the Royal Hospital. The bodies were generally wrapped in blankets, which were burned to prevent the spread of an infectious disease.

THE ACTIVE S.S. sailed from Portland or this port at 4 p m, on Wednesday, and will be due here at an early hour this morning. She will sail hence on Sunday, 22d inst; and will connect at Astoria with the steamer Oriflamme, which will leave Portland for San Francisco on Monday the 23d, instead of coming on to Victoria.

LUMBER.—Some months since, we gave the local consumption of lumber for this city and neighborhood as 200,000 ft a month, for the first half of the current year. From that date, the consumption has slightly increased up to the present time, and it is anticipated that next year it will be much larger.

FOR SITKA.—As will be seen by an advertisement in another column, the steamer Otter leaves for Sitka and intermediate ports on Monday morning at 6 o'clock, sharp.

FOR BURRARD INLET.—The barks Bolivia and Prince Victor will go to Stamp's mills to load with lumber for foreign ports; and the ship Gem of the Ocean is now on her way from San Francisco for the same destination.

DISCHARGED.—The ship Bolivia finished discharging her cargo yesterday, the whole of which turned out in splendid condition. For once Liverpool has redeemed her character in this respect.

CAN'T HURT US.—Well counterfeited $5 greenbacks are said to be in circulation. The nicest observation is required to detect the real Simon pure from the cheat.

SALE YESTERDAY.—The effects of the late Mr Swigert averaged good prices. The hearse brought $600, and was purchased by Jenkinson & Hayward.

STILL DECREASING.—Wells Fargo & Co. advertise now to put passengers through from New York to San Francisco in *eleven* days.

ODD FELLOWS.—The total number of members in England of this excellent Order, is said to be 417,422.

MRS SCOTT-SIDDONS made her first appearance in New York on the 19th of October, and met with a marked success.

LARGE SECURITY.—Europe holds $937 400 000 in American securities. England is far the largest holder.

THE steamer G S Wright arrived at Portland on Wednesday evening.

WANTED—Fifteen thousand of Hibben's Pacific Rail Road men for the consumption of Heywood's celebrated Pork Sausage, the Elixir of Life. It has been admitted by all the Medical Students of the Theatre Royal that Heywood's Pork Sausage is the only safe and sure remedy for all prevailing complaints. Three links fried nicely brown and taken internally every morning for breakfast will relieve hunger and restore the hair to its natural color. These unequalled and remarkable sausages are kept at all respectable first class Hotels, Restaurants and Boarding houses. Go in, if you want black hair. *

OVERLAND RAILWAY.—There are 15,000 men employed in the construction of the Overland Railway. It is encouraging to those who are in constant communication with the Eastern Markets to know of such an early prospect of greater future dispatch. Had this line been completed three months since, we should have been able before this date, respectfully to call the attention of the public to the great variety of Styles, and the Choice Patterns of the best Sheffield Pocket Cutlery, Scissors, &c., ex 'Bolivia.'—T. N. HIBBEN & Co. *

The Grecian Bend.

THE LAST FASHIONABLE DEFORMITY.

The Saratoga correspondent of the N Y *World* gives an outspoken account of this absurd and unnatural fashion. It would however be considered too plain spoken for Colonial taste, so we content ourselves with the *Tribune's* milder letter.

This very extreme of the present Paris toilette prevails at Saratoga to-day, or rather an imitation which might be called a burlesque or extravaganza of an antique style.

Not a bell or swell hoop is to be found where once an army of them was in motion. The chignon is worn on top of the head, with two switches inserted in the hair about thirty degrees below the key of the arch on each side of the centre, which forms pendants like the horns of a goat, or, to be more precise, like those of a chamois.

The dress has a medium waist adapted to a hoop somewhat of the shape of a barrel, large at the centre and small at each end, with a backward swell to assist in forming the train. A large bustle or 'pannier,' is worn at the top of the hoop, upon which is gathered up five or six yards of material in a kind of bundle.

This is called the 'blanchisse' or washerwoman's style, but really resembles the humps of a camel's back. Across the lower hips, below this 'pannier,' a band extends.

It will thus be seen that we have the most extraordinary toilette known in the realms of fashion for the last 500 years. It may be remembered as a historic fact that a change of fashion changes the whole tone of a person's manner. The stately, patronizing airs assumed by our belles a short time ago, when dressed in the ample dowager skirts then in vogue, would hardly be becoming the wearer of the fashionable garb of the day.

As a logical sequence of this, all our belles, when walking or standing, instead of the stately step or the statuesque, assume what is called the 'Grecian bend,' or the air of diffidence or enquiry, with all the adjuncts.

The Grecian bend is performed by pulling the lower hips up to a point even with the lower ribs, throwing the pit of the stomach back or in, the shoulders forward. The hands are held in front, pendant from the wrist, and intended to represent a spray; the gait is of a canter or tilter motion.

It will be seen from a description of the dress that it is peculiarly adapted to effectually allow of a full performance of the Grecian bend, and when the whole affair is carried out in the dance by a gay and luxuriant youth with his hair parted in the middle, placing his right arm under the left of the lady, with digitals extended, as in a spasm, resting between the shoulder blade, while with the thumb and second finger he holds her wrist, thus leaving her hand to hang lifelessly pendant, we have an exhibition of snobbishness which must put the sensible Americans to blush.

HOLLOWAY'S OINTMENT AND PILLS.—Outward Infirmities.—Before the discovery of these remedies many cases of sores, ulcers, &c., were pronounced to be hopelessly incurable, because the treatment pursued tended to destroy the strength it was incompetent to preserve, and to exasperate the symptoms it was inadequate to remove. Holloway's Pills exert the most wholesome powers over the unhealthy flesh or skin, without debarring the patient from fresh air and exercise, and thus the constitutional vigor is husbanded while the most malignant ulcers, abscesses, and skin diseases are in process of cure. Both Ointment and Pills make the blood richer and purer, instead of permitting it to fall into that poor and watery state so fatal to many labouring under chronic ulcerations. 8

LAST NIGHT'S DESPATCHES.

California.

SAN FRANCISCO, Nov. 17—Sailed—Steamship Oriflamme for Portland; ship Shooting Star for Nanaimo; barks Etienne and Free Trade for Port Ludlow.

SAN FRANCISCO, Nov 17—A serious squatter riot occurred to-day about several water blocks east of Butcher Town, on the Portero shore of Mission Bay. Charlie Duane and several other were living in cabins, built on poles, on the disputed land. Claimants of the property with thirty armed men attacked and captured Duane and one squatter, and the cabin in which they were living. The other cabins were successfully defended. A number of shots were exchanged, one of the assailants was wounded, probably fatally. Some of the public streets are in possession of the rioters. The police made several arrests. At three o'clock, thirty of the conflicting parties were still on the ground, and it was apprehended that more violence would result from their movements.

Feeling Towards Prussia.

[From the Paris Contitutionnel, Sept. 22.]

The Austrian press exhibits less satisfaction with the speech of the King of Prussia than do most of the other European journals whose opinions have as yet reached Paris That circumstance deserves to be the more remarked that, in general the principal German organs in Austria have held for some time past very friendly language towards the Berlin government. However, there is no necessity to exaggerate the bearing of the sharp criticisms which the Vienna prints employ against the words of his Majesty at Kiel; they apply, perhaps, less to the passages of the royal speech which might suggest warlike comments than to the sentence in it which mentions the events of 1866. Public opinion in Austria before and during the war with Prussia was always unanimous in recognizing that the Cabinet of Vienna had done nothing either to prepare or precipiate hostilities; it never shared, on this point, the ideas spread abroad by a considerable number of Prussians, Belgian and French journals. The history of these events has been written since by authorized publicists; diplomatic documents have been issued bearing on the whole progress of the war; and in these nothing appears to indicate, as respects Austria, a preconceived plan to settle her quarrel with Prussia by force of arms. The susceptibility of the Vienna journals is therefore probably aroused by the words in the King's reply which refer to wars forced on princes and on nations. King William very likely intended to speak only in general terms; but not the less true is it that in Vienna his words have been understood as an allusion to the origin of the war of 1866, and to this impression, no doubt, the disapproving comments in the journals of that capital are to be attributed.

The Grecian Bend in Europe—Women Devilish—Not Hideous.

[From the New York Weekly Review.]

Although the following passage—extracted from a lady's private letter—was written with no thought of publication, we think our readers will be interested in a criticism by one of the fair sex on a bad fashion of the day:

'But what shall I say of Hombourg life? How can I describe the women, the gambling saloons, the manners and customs of their frequenters, among whom I recognize many American ladies? The toilets are hideous—women positively devilish. I wonder, as I look at them, if they are really flesh and blood, and have souls, or if, after all, Mahomet was not partly right. Women of seventy years, or thereabouts, paint fearfully and adorn (?) themselves with flowers, laces, jewels, false hair, beads, and gewgaws enough to satisfy the taste of an Indian squaw. The young girls deform themselves purposely. They wear large humps on their backs, and on these bunches wear bows of ribbon three-quarters of a yard wide—so that it looks as if a monster bird had perched upon their backs. The heels of their boots are pointed, high, and exactly in the middle of the foot, and their gait is something startling. The young ladies, of course, lean forward, inclining their backs, from the waist upward, at an angle approaching forty-five degrees, causing the hump or bunch before mentioned to protrude still more monstrously—even to deformity; and they necessarily walk as if treading on eggs, in such constant dread are they of a fall. This is the mode in vogue, and it is supposed to be a revival of the ancient classic Grecian bend!'

ALEXANDER DUMAS TO VISIT THE UNITED STATES.—The terms of an agreement recently made by M. Alexandre Dumas with Mr. Ullman, the well known *impresario*, have just been published. The celebrated writer was to have gone to America to read extracts from his dramas, novels, books of travel and memoirs; and some of the scenes from his plays were to have been acted by a troop of players who were to have accompanied Dumas and M Ullman to America for the purpose. Alexander Dumas has boasted in his memoirs of his talent for cooking; and it appears that of this as of his other talents, he was to give palpable demonstration. After giving a reading and presiding at a performance, he was to cook a dinner, of which the public was to be allowed to partake, at the rate of $5 per head. Admittance to the literary banquet was to cost but one dollar. For reading, reciting and cooking, Alexander Dumas was to receive 25,000 francs a month, besides a share in the profits. The execution of the contract, however, has been postponed by mutual consent in view of the Presidental election, which, by diverting public attention, might, it was thought, interfere with the success of the enterprise. Accordingly the departure of M Dumas for the United States has been postponed until next year.—*Pall Mall Gazette Sept.* 19.

Letter from London.

(FROM OUR OWN CORRESPONDENT.)

LONDON, Saturday, Sept. 19, 1867.

Yesterday Father Ignatius was mobbed in Lombard street. Some thousands of persons gathered from the banks and mercantile houses of this London business street; banged, roared, and pelted at the Police-locked gates of the church in which the English monk was preaching; pelted, insulted, and grossly outraged ladies and clergymen as they ventured out, and the young Father himself was only saved from violence, perhaps death, by the adroit manœuvres of the Police. He was, after a long time, and several efforts got away in a cab; and all this for a little bold preaching, a departure from the pulpit cowardice, which the newspapers have been denouncing. He said Lombard street was worse than Jericho, near which the man fell among thieves. He may have called its denizens a generation of vipers. He quoted Scripture at them. So hard is it to suit people. Preach smooth things and they despise you and go to sleep or stay at home; preach rough ones and they mob you, and pelt your congregation. Lord Sydney Godolphin Osborne says the English Church is already disestablished. The State has no longer any choice, power or control in the matter. It is folly to say that this arrogant treachery is found only in a sect. The Church is going to Rome while the Bishops are playing croquet. Then, while commending the boldness of Father Ignatius' sermons to the fashionables at Brighton, he says his assumption of the robe and cowl of a monk is nauseous to Protestants and insulting to Roman Catholics.

Several of the Paris journals comment on the language of the King of Prussia at Kiel, and their appreciation of his words is exceedingly various. The most important of the articles appears in the *Constitutionnel*, and may justly be looked upon as semi official. It says:—The pacific intention of the King of Prussia in his observations cannot, in our opinion, be attenuated by the phrase in which his Majesty eulogizes his army and navy. This compliment to the officers of both services present at the reception is easily understood as coming from a sovereign proud of the military successes of late years.

Of the other journals which remark on the King's words the *Avenir National* expressed itself in these terms:—"King William calls God to witness, before whom he declares himself responsible. He affirms that in Europe he sees no threatening circumstance; but he points to his fleet and his army, 'that strength of the country which has proved that it does not fear to accept and carry to a successful termination a struggle when forced on it' as a principal guarantee of peace. The sovereign of Count de Bismarck evidently desired to speak to Europe as much as to the rector of the Kiel University. He sees no reason for war, he says, and in presence of God he desires peace. If, in order to maintain this desirable tranquility the principal support must be found in that fleet and immense army ready to go to war, whose is the fault?"

We have already given a notice of the long article written by M. Guizot for the *Revue des Deux-Mondes* on the present situation of Europe, particularly inasmuch as Prussia and France are concerned. Speaking of Napoleon the writer says:—I do not think that the Italian war, with the grave embarrassments which attended and have followed its successes in the Mexican war, with its lamentable issue, can have greatly strengthened in the Emperor Napoleon's heart a taste for war, and for the problems which it raises. I know not whether he still retains all that faith in his destiny, all that confidence in his fortune, which for a long time characterized his life. The experience of disappointments and of reverses is a heavy burden to bear, even for the most obstinath optimiste or fatalists. Moreover, age comes on, bringing with it other than personal interests and other preoccupations than the fancies of imagination or the workings of solitary thought. From these facts and moral probabilities I infer that in the question of peace or war arising out of the events in Germany and in spite of the regret and annoyances these events must cause him, the Emperor Napoleon is more inclined to peace than war, and that he will seek rather to allow time gradually to heal the wounds of France and his own than embitter them by running fresh risks.

The *Corriere Mercantile* of Genoa alleges that in consequence of dissensions between the Left, the Garibaldians and the Ratazzi party, the Naples political meeting has been postponed till towards the close of October. Many persons think it is definitely abandoned.

The case of the *Nuova Epoca* of Florence, charged with insult to the person of King Victor Emanuel, has been heard by the Court of Assizes in that city. The jury found the accusation proved, and the tribunal sentenced the *gerant* to six months' imprisonment and 2000 francs fine.

The *Ficcanaso*, a Turin journal, has been seized on account of articles abusive of the King.

M. Czerny, editor of the *Narodny Pokroh*, of Prague, has been sentenced for having disturbed public tranquility, to eighteen months' imprisonment and a fine of 3,000 florins. M Delnik, holding a similar post on the *Workman's Daily Sheet*, has been sentenced to three months of the same punishment and to pay 100 florins, for having excited hatred against nationalities and religions.

The Paris *Debats*, in an exhaustive article on the policy and duty of France towards Prussia, says:—Our natural allies are not to be found in Germany. Instead of interfering with the internal organization of Germany we would do better to imitate Prussia and draw closer our military and commercial ties with the countries which gravitate naturally towards our orbit. France is forcibly called upon to exercise over those countries the same kind of influence that Prussia exercises over the States which form the Confederation, and Germany would have no right to complain if we followed the example she herself has set.

Garibaldi has addressed the following letter to the Mutual Aid Society at Turin under date of Caprera, September 14:—"You have done well to constitute an association of the brave man who have made the campaigns of the country. The duty of all Italians is to wash out the shame which has fallen on our native land under late circumstances. But more especially does that obligation fall on those who, with arms in their hands, sustain the nation in maintaining its rights.

The papers of this morning give the particulars of a scene of wholesale slaughter which occurred on board an Italian vessel—the Theresa, which has just arrived at Macao. The Theresa left Macao on the 9th of February with 296 Coolies and a cargo of silk, tea, &c. At the end of sixty-two days she arrived in sight of the shores of New Zealand. While the crew were occupied in the forepart of the vessel the Coolies rushed to the cabins and seized the arms lying there. They then attacked the crew and in about ten minutes a dozen sailors (Italians) were killed, hacked to pieces and flung into the sea. The second mate, who defended himself bravely, received the contents of a gun fired close to him by a sailor who was forced by the Coolies to commit the murder. The boatswain's mate received nineteen wounds and was put in irons. After eighty days of horrible tortures (nails being driven into his head), he was killed about forty-eight hours before the vessel arrived off the coast of China. Now follows the most appalling part of this drama. After having exterminated nearly the whole of the crew the coolies began fighting among themselves, and fifty of them were killed. The victorious party then proceeded to decapitate the dead, whose heads, packed in boxes, were stowed away in the hold. At the end of sixty days the stench exhaled by these remains became almost unsupportable. The unfortunate wife of the Captain, who was confined between decks, suffered dreadfully from it, and was otherwise subjected to the most cruel treatment. The majority of the coolies were pirates and were perfectly acquainted with the use of the compass and with the charts. They compelled the Captain to steer for the port of Tim-Pack. On arriving there the Theresa was pillaged by them, and the Mandarins aided in stripping the vessel. In this condition the vessel, abandoned by the pirates, arrived at Macao, having on board the remainder of the crew, consisting of eight sailors, and the wife of the Captain.

COLUMBIA.

Sober Facts for Thinking People.

Year after year, for an eighth of a century, the Press of the country has chronicled the beneficial effects of HOSTETTER'S STOMACH BITTERS. Editors, authors, physicians, merchants, officers of the army and navy, chemists, counselors, ministers of the gospel, in short, a great cloud of witnesses of every profession, trade and calling, have testified to its efficacy as a tonic and regulating medicine. The names and statements of these witnesses have been published in the public prints. Many of them are well known to the whole public. Their testimony has never been challenged or impugned. Upon evidence far less weighty men are acquitted or condemned by conscientious juries.

HOSTETTER'S STOMACH BITTERS is not, however, upon trial. It has been tried and pronounced on the authority of those whose lives and health it has preserved, a pure, harmless, and eminently salutary preparation. Attempts have been made to rival it. They have failed. Can it be necessary to say why they have failed? Ask the recovered dyspeptics, bilious sufferers, victims of fever and ague, and nervous subjects who have experienced its effects, what *they* think of it. ASK THEM and be guided solely by what they say. Sold everywhere. *

REMEDIAL PROPERTIES,

Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex arising from Bodily Weaknesses, whether inherent in the system or
PRODUCED BY SPECIAL CAUSES.

As a genuine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated.

Persons of feeble habit, liable to Nervous Attaks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both sexes.

In districts infested with Fever and Ague, it has been found infallible as a preventive and irresistible as a remedy. Thousands who resort to it if under apprehension of an attack, escape the scourge; and thousand who neglect to avail themselves of its protective qualities in advance, are cured by a very brief course of this marvelous medicine.

Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieve the Constipation superinduced by irregular action of the digestive and secretive organs.

RIGAUD'S TOLUTINE

Is an admirable toilet-water, the true talisman of beauty, preserving the freshness of the skin and the fairness of the complexion. It is the perfection of science adapted to the toilet, and is incontestably superior to Eau de Cologne, or the most esteemed of vinegars and the Florida water.

THE MIRANDA HAIR OIL AND POMATUM.

Is a remarkable preparation which may be called a real treasure for the hair. It is composed of tonic and fortifying compound, and it beautifies and preserves the hair at the same time as it imparts to it a most refreshing pefume.

MIRANDA SOAP,

COMPOSED MAINLY OF THE MILK OF THE LETTUCE AND THE LILY.

A simple comparison of this soap with others sold by the perfumery trade, suffices to prove its superiority. It gives the skin a deigh surface, it lathers abundantly, forming a real milk-bath, and is all that can be desired as to perfume.

AND TOOTH-PASTE.

THE DENTORINE is a pleasant elixir for the teeth; it perfumes and refreshes the mouth, strengthens the gums and prevents decay.

THE TOOTH-PASTE has made quite a revolution in this class of toilet necessary, and has done away with powders and opiates that are more or less acid and dangerous. A brush passed over it produces a soft and unctuous mucilage that gives the teeth a brilliant whiteness.

French Medicines,

PREPARED BY

GRIMAULT & CO.

Chemists to H.I.P. Prince Napoleon,

PARIS.

THESE different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names suffice only to indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the **Academy of Medicine** and have been proved efficacious, either in the hospitals or in the practice of the first medicalmen, are authorised by the Government. This fact must be a guarantee for the excellence of **Messrs. Grimault et Co.'s** Medicines.

TO THE UNFORTUNATE

NEW REMEDIES, NEW REMEDIES.

Dr Gibbon's Dispensary,

616 KEARNEY STREET, NEAR Commercial, San Francisco, Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis, in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned to this State, after an absence of one year during which time he visited all the principal Hospitals of Europe, among them those of Dublin, London and Paris. The following celebrated Hospitals of London are among those visited by the Doctor: Guy's, High street, Borough; St. Bartholomew's, Smithfield, St. Luke's, Old street, St. Mary's, Camb. Place, Pad.; Lock, Harrow Road: University, Gower street; Westminster, Broad Sanctuary; Charing Cross, Agar street, Strand; London, Whitechapel Road; Royal Free, Gray's Inn Road; King's College, Portugal street

DR. GIBBON has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces, and their broken down constitutions, disqualifying them from the happiness of marriage or of the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of those horrible, life-destroying maladies—see that they are cared for, and cured before it be too late. Send them immediately to DR. GIBBON, a physician who has made private diseases his especial study for years, who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended Doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful, and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz.: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN.

Of those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Cured at Home.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use. By enclosing $15 in currency or $10 in coin, in a registered letter through the Post office or through Wells Fargo & Co., a package of medicine will be forwarded by express to any part of the Pacific Coast.

Address Dr J. F. Gibbon, 616 Kearney street, corner Commercial, San Francisco.—Post office box 252.

Remember to put BOX 252 on the letter.

Consultations FREE.
